# Angelin Jenifer

Experienced Python Automation Engineer | Immediate Joiner |  
Scripting • Testing • CI/CD  
Chennai, Tamil Nadu, India

## Summary

Detail-oriented Automation Test Engineer with 4.8 years of experience in Python-based test automation, CI/CD integration, and quality assurance across education, healthcare, and job portal domains.

### Core Expertise:

**Automation & Frameworks:** Proficient in Python, Selenium, PyTest, TestNG, and Unit Test Frameworks for building scalable and maintainable test suites.

**API & Performance Testing:** Skilled in API automation (Rest Assured), SQL-based validations, and performance testing to ensure system reliability.

**CI/CD & Tools:** Experienced in setting up CI/CD pipelines and defect tracking using Jira, Redmine, and Azure DevOps.

**Additional Skills:** Web scraping, HTML, CSS, Bootstrap, Git/GitHub for version control.

### Key Strengths:

Delivered stable and efficient automation frameworks improving test execution speed and software quality.

Strong debugging and analytical problem-solving abilities.

Effective communicator and collaborative team player.
